LIMITED WARRANTY

C. C. Kelley and Son, Inc., hereinafter referred to as Kelley, warrants to the original retail purchaser of Kelley equipment that it will either repair or replace any part which proves, upon inspection by Kelley, to have been defective within 180 days from the original date of retail purchase. This warranty is valid only if the purchaser has returned to Kelley assigned Warranty Registration Card within ten days after the equipment is delivered to the purchaser. To verify the warranty period, purchaser should keep the sales slip or other proof of the purchase date.

This warranty shall not cover damage caused by accident, misuse, or tampering with the product, and a charge will be made for such repairs. Warranty shall not apply to any part of the equipment if it has been installed, altered, repaired, misused in a way that in the opinion of Kelley affects the reliability of or detracts from the performance of the equipment. Neither does this warranty apply to any part of the equipment if its serial number has been altered, defaced, or removed; nor does it cover replacements or repairs necessitated by normal wear; loss or damage resulting from any cause beyond the control of Kelley including, but not limited to, Acts of God, acts of government, floods, fires, shortages of materials, and labor difficulties.

Within 180 days from date of purchase any warranty claim must be brought to the attention of the Kelley dealer from whom the equipment was purchased. The dealer will complete a Request for Credit Authorization Form and return it to Kelley for consideration. All defective parts must be returned freight prepaid to Kelley before a warranty claim will be considered.

Kelley will not assume liability for any costs involving labor, altering of design, or welding unless prior authorization is granted by Kelley. No warranty shall be allowed as to the attachment of the loader to specific tractors; it is beyond Kelley control that tractor manufacturers make changes, which may require minor alterations of the mounting and/or attachment. Kelley reserves the right to make the final determination of time and hourly rate for labor claims. The purchaser of the Kelley equipment is responsible for any transportation expenses, damages, or losses that result from a warranty claim.

Defects in components purchased by Kelley as complete units for installation in or with Kelley equipment will only be made good by Kelley to the extent that the original manufacturer warrants them to Kelley. Standard warranty on all purchased items is replacement only of defective parts upon inspection by the original manufacturer. Kelley will not be liable for any operational delays or consequential damages under this warranty.

Kelley neither assumes nor authorizes any person to assume for Kelley any other obligation or liability in connection with the sale of this equipment.
